 - b. We are awaiting for Deangele to develop a landscape plan for the tree replacement on property.
 - c. The tree replacement project will need to wait until closer to the Fall 2021 due the risk of the summer heat and possible lack of precipitation hindering the development of any newly planted tree.
 - d. The Board has scheduled October 9th to walk the property with Deangele to discuss the tree planting plan.
3. Tree Removal from Backyard areas
 - a. The Board has the right to remove any trees that have been planted in any exclusive use common areas.

- a. Enforcement of rules has been stepped up in an effort to remove habitat for pests. This has led to an increase in complaints.

- b. Many sheds are in such poor repair that they are an attractive nuisance. Some may have to be demolished
 - c. Maintaining sheds is Unit Owner responsibility. A letter will be sent reminding owners of this fact.

OLD BUSINESS:

1. Right of First Refusal and Online meeting vote **(ONGOING)**
- a. With ROFR in the condo docs, FHA approval is impossible to get, because it is discriminatory.
 - i. The Board has never invoked ROFR.
 - b. Technically the condo docs do not allow an annual meeting to be held in any manner other than in person.
 - i. Meeting online is safer during a pandemic and could increase unit owner participation, even after the resolution of the COVID-19 crisis.
 - ii. Casting votes virtually would be much easier than the currently mandated method of paper ballots or voting in-person at meetings.
 - c. A vote by the association would be required to change both of these, with a supermajority approving.
 - i. Being eligible for FHA loans would drive up home values.
 - d. Vote progress: (EEE votes out of QQQ needed)
2. Water Main shut off valves **(POSTPONED UNTIL FURTHER NOTICE)**
- a. Should be starting up soon.
 - b. Some of the shut off valves have calcified due to lack of use and can no longer be turned off.
 - i. This is an issue because there will be no way to turn off the water to any particular unit if there is a plumbing emergency.
 - ii. If we do not have this option, there is a chance that other units can be damaged

by leaking water.

- c. Email was sent out to inform unit owners to test their shut off valves and express them at least 2× per year.
- d. If the unit owner has a valve that is calcified and cannot be expressed, the association will send out a plumber to replace the valve.
- e. The cost of the replacement will be split equally between the association and the unit owner.
