 - i. Meeting online is safer during a pandemic and could increase unit owner participation, even after the resolution of the COVID-19 crisis.
 - ii. Casting votes virtually would be much easier than the currently mandated method of paper ballots or voting in-person at meetings.

 - ii. If we do not have this option, there is a chance that other units can be damaged by leaking water.
 - c. Email was sent out to inform unit owners to test their shut off valves and express them at least 2x per year.
